

If you are being forced to take the PCR test:

With regard to the matter of the PCR test and my desire to be fully informed and appraised of ALL facts before going ahead.

I'd be most grateful if you could please provide the following information, in accordance with statutory legal requirements:

1. Can you please advise me of the legal status of any PCR test if it is experimental?
2. Can you please provide details and assurances that the PCR test has been fully, independently and rigorously tested against control groups and the subsequent outcomes of those tests?
3. Can you please confirm for me that the PCR test actually detects the presence of the infectious agent it claims to detect and provide me with the experimental evidence thereof?
3. Can you please advise me of the full list of contents of the PCR swabs I am to receive and if any are toxic to the body?
4. Can you please fully advise me of all the adverse reactions associated with this test since it's implementation?
5. Can you please confirm that the test you are advocating is NOT an invasive graphene-containing nanolipid hydrogel technology designed to implant and self-assemble into the brain?
6. Can you please confirm that I will not be under any duress from yourselves to accept this procedure in compliance with the Nuremberg Code?
7. Can you please confirm for me that my genetic data collected by this test shall not be used or sold to any third party?

Once I have received the above information in full with written confirmation signed in the presence of a witness, and I am satisfied that there is NO threat to my health and/or privacy, I will be happy to accept your offer to receive the test, but with certain conditions - namely that:

1. You confirm that I will suffer no harm.
2. Following acceptance of this, the offer must be signed by a fully qualified doctor who will take full legal and financial responsibility for any injuries occurring to myself, and/or from any interactions by authorized personnel regarding these procedures.
3. In the event that I should have to decline the offer of the test, please confirm that it will not compromise my position and that I will not suffer prejudice and discrimination as a result?

I would also advise that my inalienable rights are reserved.
